

**Subject:** RE: 2nd sheet of GNWT Exemption requests

**Date:** Wednesday, October 12, 2011 1:23:47 PM MT

**From:** Joel Holder

**To:** Heidi Wiebe

As requested.

DEPARTMENT	LICENCE/PERMIT	ACT	QUESTIONS FROM SLUPB	ANSWERS FROM GNWT DEPARTMENT
ENR	Big Game Outfitter Licence	Wildlife Act	the nature of the authorization	The licence authorizes a business to provided guided commercial big game outfitting activities in a specific geographic area as defined by geographic coordinates
			the nature of the land use activity it is typically inked to	the licence authorizes the holder to provide guided commercial big game outfitting activities – day tours, or multi-day tours where the clients are provided with a guided hunt.
			any rights or interests in land typically associated with the authorization	No rights to the land or water are invested with the licence – however multiple licence holders may not conduct activities in the same area.
			if it is ever issued in the absence of other authorizations or always one of many	Applicants for new or amended licences are required to demonstrate that they have land use permits or permission to cross private lands under land claims settlements IF their use triggers such a requirement; however, in most instances the nature of the activity licenced under a Big Game Outfitter Licence does not trigger such requirements, and the licence is issued after mandatory consultation with local community governments and Aboriginal organizations who may have an interest in the area
			rationale for why it should be exempt.	Big Game Outfitter licence activities that provide services to the consumer; the licencing process requires mandatory consultation with stakeholders who may be potentially affected (other outfitters, community and Aboriginal governments); including Big Game Outfitter

				Licence holders in an authorization scheme under the plan is a duplication of process and places unnecessary regulatory burden on tourism operators who are typically small businesses who are already overburdened by regulation
--	--	--	--	---

DEPARTMENT	LICENCE/PERMIT	ACT	QUESTIONS FROM SLUPB	ANSWERS FROM GNWT DEPARTMENT
ENR	Pesticide Licence	Pesticide Act	the nature of the authorization	The licence authorizes a business to apply pesticide in a specific geographic area as defined by geographic coordinates
			the nature of the land use activity it is typically inked to	the licence authorizes the holder to apply pesticide.
			any rights or interests in land typically associated with the authorization	No rights to the land or water are invested with the licence.
			if it is ever issued in the absence of other authorizations or always one of many	A pesticide application permit and pesticide business permit are required.
			rationale for why it should be exempt.	New or altered permits are already required to do a pre-screening with about 30 different interested organizations. Additional consultation would be a duplication.

DEPARTMENT	LICENCE/PERMIT	ACT	QUESTIONS FROM SLUPB	ANSWERS FROM GNWT DEPARTMENT
ENR	Wildlife Research Permit	Wildlife Act	the nature of the authorization	Permit to conduct research on wildlife
			the nature of the land use activity it is typically inked to	Various – large game animal surveys, wildlife health surveys, etc
			any rights or interests in land typically associated with the authorization	No rights to the land or water are invested with the licence.
			if it is ever issued in the absence of other authorizations or always one of many	No
			rationale for why it should be exempt.	There is already pre-screening associated with the RRCs and RRBs prior to this permit being issued additional consultation

				requirements would be a duplication. Activities that the permit is issued for are for wildlife research and not for land use activities.
--	--	--	--	--

DEPARTMENT	LICENCE/PERMIT	ACT	QUESTIONS FROM SLUPB	ANSWERS FROM GNWT DEPARTMENT
ENR	General Wildlife Permit	Wildlife Act	the nature of the authorization	Allows for the baiting or harassment of wildlife
			the nature of the land use activity it is typically linked to	Outfitted hunting (ie. Bear Baiting)
			any rights or interests in land typically associated with the authorization	No rights to the land or water are invested with the licence.
			if it is ever issued in the absence of other authorizations or always one of many	No
			rationale for why it should be exempt.	There is already pre-screening associated with the RRCs and RRBs prior to this permit being issued additional consultation requirements would be a duplication. Also falls under the MVRMA.

**Subject:** 2nd sheet of GNWT Exemption requests

Hi Joel,  
I had asked Michelle to forward me the second sheet of exemption requests the GNWT put forward in last week's workshop so I can post it to our website. Looks like she forgot before she went to Chile. Do you have a copy you could forward me please? Thanks.
