Dear John,

Thanks for taking the time to meet with me while I was in Fort Good Hope last week. I also received your email with the link to the SLUPB site that has Draft #1 for the Sahtu Land Use Plan.

As we discussed, our big-game outfitting industry is a low-impact user group who have many of the same philosophies, visions and goals as the Draft Land Use Plan. It is good to see that the Plan recognizes our industry and considers commercial hunting as acceptable land users in the Conservation Zones. We are long-term stakeholders who contribute greatly to the regional economy and we have every intention to keep the land as pristine as possible.

We will review the Draft #1 and have comments back to you by the deadline of May 31. We will look forward to working with you and having input into this important document.

Sincerely,

Kelly Hougén
President
