**Subject:** Fwd: SLUP Meeting with Tulita RRC  
**Date:** Tuesday, October 19, 2010 9:07:34 AM

---

Dear Edna,

Further to my emailed report of September 28, 2010 I would like to advise you that I returned to Tulita and met with the Board of Directors of Tulita Renewable Resources Council on October 18, 2010. There was a wide ranging discussion that did not result in any specific views on Draft 3 of the SLUP. However there was a consensus that there is still not enough knowledge about Draft 3 or the process of land use planning.

Therefore the board of Tulita Renewable Resources Council requests that the hearing scheduled for November 23 - 25 in Norman Wells be postponed until mid January 2011. The board also requests that another workshop for the community of Tulita be organized for early December 2010 which would involve not only members of the community but involve, on a formal basis, the RRC, the two Land Corporations and the Tulita Dene Band.

The board also points out that the postponement of the hearing until mid January 2011 would allow for greater involvement from all the communities due to the winter road allowing more people to attend.

Yours truly,

Rick Hardy
