Proposed Time Allocations

Discussion Item	Questions	Discussion Document Pg #	Time Allocation (Approx)
Conformity Requirements			
General CR Revisions	Discuss new structure of CRs as proposed at Hearing.	15	20 min
CR #1 - Zoning	Should the Final Draft show the current land withdrawal boundary or the proposed boundary under consideration? (CWS/INAC/GNWT)	15	10 min
CR #2 - Protection of Special Values	Do revisions address the confusion with preliminary screening terminology? Does this CR do enough to protect values in SMZs?	16	15 min
CR #3 - Project Specific Monitoring	Do revisions address the comments adequately? Is there still a need to include "where confidentiality issues do not prevent such distribution" in Clause 2?	18	15 min
CR #4 - Community Engagment and Traditional Knowledge	What is the overall goal for this CR? To what extent should the Plan try to describe effective community engagement as outlined by communities?	19-24	3 hrs
	What is the rule (goes in the Plan) and what is helpful interpretation (more suitable for the Implementation Guide)?		
	To what extent can we incorporate elements of "community control" into this CR (e.g. giving strong consideration to community input)?		
	Should there be a minimum threshold of activity/authorization below which this CR should not apply and what should that threshold be?		
	Is it appropriate to include the community engagement process established under the Prospecting Permit Protocol in this CR or as a separate Action?		
	What is appropriate in setting requirements to consult directly affected community members (e.g. where an activity will impact somoene's trapline or a family's hunting camp). The community can identify directly affected individuals.		
	Is it appropriate to provide guidance on who to gather TK from in the CR? Is this suitable guidance for the Implementation Guide?		
	Discuss proposals to integrate Recommendation #3 into the CR directly, and Recommendations #5 into the Implementation Guide.		
CR #5 - Community Benefits	What is the goal of this CR? What should it accomplish? Option 1: A public interest test (original intent); 2) An assessment or consideration of benefits (weaker and provides no actual requirement for anyone to benefit).	25-27	2 hrs

Proposed Time Allocations

Discussion Item	Questions	Discussion Document Pg #	Time Allocation (Approx)
	Should there be a minimum threshold of activity/authorization below which this CR should not apply and what should that threshold be?		
CR #6 - Community Land Use Monitors (Formerly R #2 - Wildlife Monitors)	Discuss change from Recommendation to a CR	27-29	45 min
	Discuss funding/hiring responsibilities and whether this should be locked into the CR (or R if not acceptable as a CR).		
	Should there be a minimum threshold of activity/authorization below which this CR should not apply and what should that threshold be?		
	Is there an alternative? E.g. a full time monitor for the region or each community that each project contributes to, rather than hiring an independent monitori adhoc for each project.		
CR #7 - Arch Sites, Historical Sites & Burial Sites	Discussion on revised split buffer	29-30	30 min
	Have we provided an acceptable balance between community control and flexibility?		
	Should there be a minimum threshold of activity/authorization before requiring the archaeological assessment and what should that threshold be?		
CR #8 - Watershed Management	Discussion on new focus for the CR - is it acceptable? If not, then what are the alternatives?	31-33	45 min
	What is the acceptable solution between the GNWT requirement that we not change anything from what is in the land claim and addressing community interests that all water be protected?		
CR #9 - Drinking Water	When will the new mapping be ready (GNWT)? Check that there are no further outstanding issues.	33-36	15 min
CR #10 - Wildlife	Have we added sufficient flexibility for the setbacks?	36-38	15 min
CR #11 - Species Introductions	No change proposed - no discussion needed.	39	0
CR #12 - Sensitive Species and Features	Do the changes to the Karst and mineral lick sections adequately address the issues?	40-42	15 min
	Should there be a minimum threshold for conducting a rare plant survey?		

Proposed Time Allocations

Discussion Item	Questions	Discussion Document Pg #	Time Allocation (Approx)
CR #13 - Closure and Reclamation	Should a clause be added to the CR regarding progressive reclamation? What should it say?	42-45	20 min
	Need confirmation (INAC) that the "Sahtu privately-owned lands" clause needs to be there.		
	Should there be a minimum threshold of activity/authorization below which this CR should not apply and what should that threshold be?		
CR #14 - Climate Change	Should there be a minimum threshold of activity/authorization below which this CR should not apply and what should that threshold be?	45-47	10 min
